Write your times table on a set of lolly sticks. The first player reads the questions on the lolly sticks and the second player must answer as quickly as possible. Use a stopwatch to see who can answer the full lolly stick set the quickest.

Create a poem for a times table where each new line starts with a multiple.

Organise a treasure hunt using your facts as clues.

Ask someone to write a true or false multiplication or division fact. How quickly can you identify whether the fact is true or false? Explain your reasoning.

Create a poster of your times table facts using bubble lettering.

Sing your times table facts in a variety of voices. Have a competition with your friend – who can sing the facts in the most creative way?

9	
9	

$$1 \times 9 = 9$$
$$9 \div 9 = 1$$

18	
9	9

$$2 \times 9 = 18$$
$$18 \div 9 = 2$$

27		
9	9	9

$$3 \times 9 = 27$$
$$27 \div 9 = 3$$

36			
9	9	9	9

$$4 \times 9 = 36$$
$$36 \div 9 = 4$$

45				
9	9	9	9	9

$$5 \times 9 = 45$$
$$45 \div 9 = 5$$

54					
9	9	9	9	9	9

$$6 \times 9 = 54$$
$$54 \div 9 = 6$$

63						
9	9	9	9	9	9	9

$$7 \times 9 = 63$$
$$63 \div 9 = 7$$

72							
9	9	9	9	9	9	9	9

$$8 \times 9 = 72$$
$$72 \div 9 = 8$$

81								
9	9	9	9	9	9	9	9	9

$$9 \times 9 = 81$$
$$81 \div 9 = 9$$

90									
9	9	9	9	9	9	9	9	9	9

$$10 \times 9 = 90$$
$$90 \div 9 = 10$$

99										
9	9	9	9	9	9	9	9	9	9	9

$$11 \times 9 = 99$$
$$99 \div 9 = 11$$

108											
9	9	9	9	9	9	9	9	9	9	9	9

$$12 \times 9 = 108$$
$$108 \div 9 = 12$$
