## A. Improvement – Trust Model Synopsis

- **Our strategy model** is structured around establishing sustainable improvement “building blocks” of **capacity, consistency and clarity** in school operations delivered through interlinked improvement strategies informed by Trust, local and national school **contexts**. We define these essential building blocks as;
  - ✓ **Capacity** – *the ability to design, deliver and lead change within an agreed strategic vision*
  - ✓ **Consistency** – *the ability to standardise systems, process, protocols and standards to*
  - ✓ **Clarity** – *the rigorous application of school improvement models, CPD programmes and*
  - ✓ **Context** – *the identification of Trust and local priorities which deliver gain and value added for stakeholders*
- This annual AIP document exemplifies the Trust’s approach to delivery of school improvement “building blocks” which lead into five overall Trust prime improvement areas - *Vision and Culture, People and Leadership, Curriculum and Assessment, Teaching and Learning, Governance and Accountability*.
- **Trust self-assessment system** (see Trust Risk Register/Capacity framework Tool) used to risk manage the latest achievement/context of a Trust on an annual basis. Levels of support, resource deployment and challenge will then be decided by the Trust Board. Schools will continue to be reviewed against the following criteria;

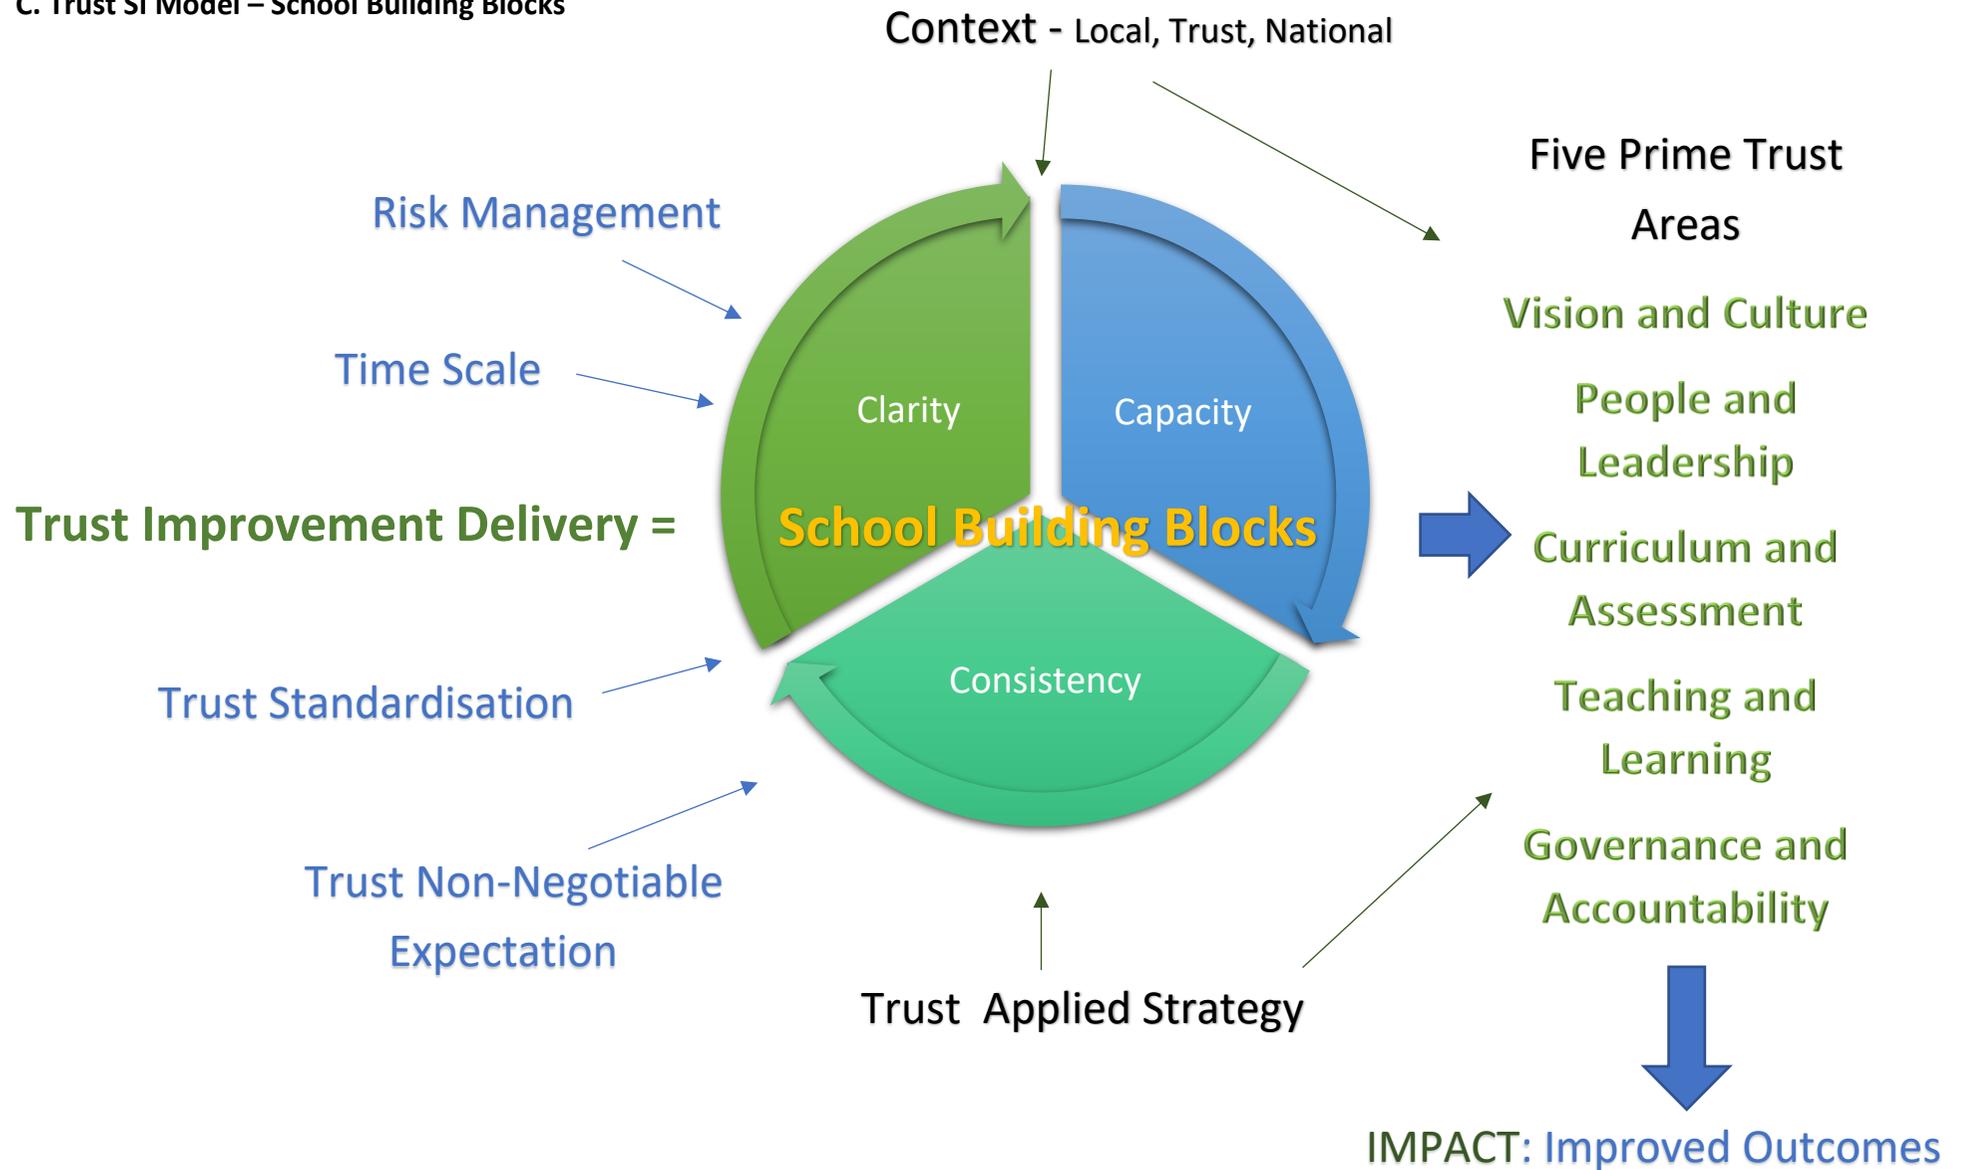

|   |  |
|---|--|
| <b>Seriously underperforming school</b>                   | The need is for rescue or recovery: rapid control, arrest of decline, assessment of priorities, firm action, injection of systems and staff, critical decisions and modelling what is needed   |
| <b>School that requires improvement to be judged good</b> | A school requiring reinforcements: building capacity, harnessing good practice and improving that which is not, developing and empowering staff, ensuring consistency, raising aspirations, designing and implementing a strategy for creating a school that is good or better                   |
| <b>Good to outstanding</b>                                | The need for refinement: ensuring that all teaching and learning is good and that an increasingly high proportion is outstanding, refining monitoring and evaluation, ensuring the needs of every pupil are met, growing leaders, reducing achievement gaps and maximising progress and outcomes |
| <b>Sustaining excellence</b>                              | A school requiring renewal: not simply sustaining outstanding practice but building on it, innovating, fine tuning and spreading the schools influence more widely   |

## B. Creating Shared Vision, Aspiration and Expectation

- Trust Vision and Mission Statement– *Igniting Curiosity, Growing Capabilities* - **“To grow capability mature children who are positively engaged, compassionate, competent young people conscious of the role they play in society, who are curious about the world around them and their place in it”**
- Trust schools will focus on delivering school improvement programmes closely linked to their local need and the Trust priorities – providing a “departure” point and “arrival” point to measure success and gain. School improvement is always identified with raising the quality of learning and standards. SI needs will be identified by using the full range of Trust self-evaluation tools. The pyramid shows SI implementation strategy;

## D. Academy Improvement Plan 22-23 – Improving Outcomes for Children

**Trust Over-arching Vision:** *Igniting Curiosity, Growing Capabilities - “To grow capability mature children who are positively engaged, compassionate, competent young people conscious of the role they play in society, who are curious about the world around them and their place in it”*

### School Vision and Ethos Statement: Inspiring Passionate Life-Long Learners

We are committed to this by developing our ‘Learning Sails’ with Pupils:

- Reflection

We ask all learners to give thought or consideration on their actions and learning.

- Self-awareness

We encourage self-awareness and having a conscious knowledge of one’s own character, feelings and learning. We encourage learners to know where they are with their learning and their next steps.

- Curiosity

We inspire all learners to have strong desire to know or learn something, questioning their learning experiences to find out more.

- Resilience and Tenacity

We promote the capacity to recover quickly from difficulties or challenge. We encourage all to be very determined and show determination despite the challenge.

- Connect

We promote learning where connections can be made, where children can relate new and old learning.
